COMPANY PROFILE

WHAT IS RACK ARMOUR?

Rack Armour is the next generation of rack protection, the best possible defence to guard your racking upright. Made from a ballistics grade polymer's Rack Armour has long been the global market leader for rack safety, independently tested to FEM 10.2.02 (The European standard recognised Internationally).

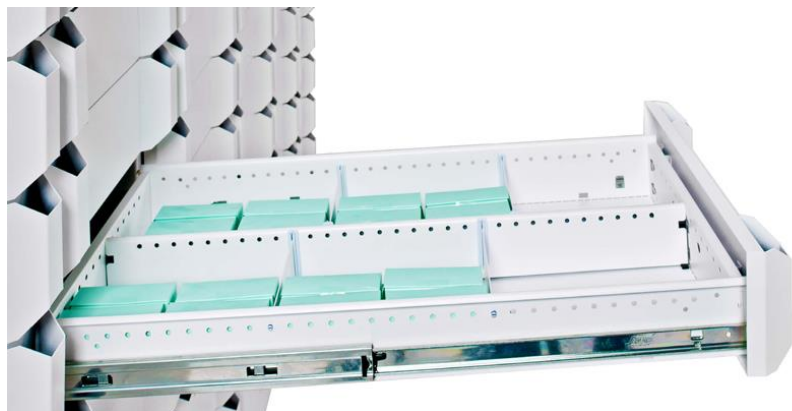

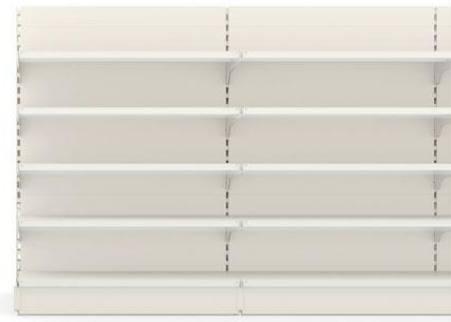

Rack Armour racking protection is well known worldwide not only for reducing rack damage, (especially forklift related damage) but also for reducing injuries and the need for expensive repairs.

COMPANY PROFILE

Welcome to CAEM Shelving Engineering, the global group for shop fitting supplies. Our extensive product range, the outstanding service level and our presence covering all the globe in term of manufacturing and customers™ assistance, makes of CAEM the perfect choice for the shop fitter and the retailer.

Health and Safety Legislation

Racking inspections form an integral part of any company's safety management program as it promotes best practice and ensures conformity with current legislation. We at Peak Group take great pride in providing this service to all our customers through our Rack Aid® management system. This management tool is designed not only to save customers time, disruption and money, but also ensures compliance with all current Health and Safety legislation relevant to industrial pallet racking storage equipment.

Consultancy, Design and Project management service for Racking Systems

**Engineering consulting services, Auto Cad drawings with layouts and details
Inspections, certification and recommendations**

Service and Maintenance all storage systems

The correct installation of storage equipment is absolutely critical for a smooth running and safer warehouse. In an industry where rogue installation companies are rife, we pride ourselves on having a reputation as one of the best.

Peak Corporation has a strict, trained and competent group of installers that have an excellent, proven history in installation capabilities and interaction with our customers. Our installers are instructed to be our ambassadors and to perform with courtesy and respect for customers and come with the knowledge that they are there to compliment your undertaking, not to disrupt it.
