## Guide to Selective pallet racking

### Selective Pallet Racking System

Easily installed, cost-effective and versatile, adjustable beam racking is the most widely used of pallet storage systems and allows direct access to each pallet stored. With adjustable beams, racking can be re-configured to accommodate changes in the type of goods stored and wide aisles allow access by all types of truck, making specialised handling equipment unnecessary.

#### Features check list

Space utilisation of floor area	✓ ✓ ✓
Utilisation of cubic storage space	✓ ✓ ✓
Access to individual pallet loads	✓ ✓ ✓ ✓ ✓
Speed of access & throughput	✓ ✓ ✓
Efficiency in stock rotation	✓ ✓ ✓
